RESEARCH CONFERENCE ON TOBACCO CONTROL IN AFRICA

16 – 18 JULY 2014

CAPE TOWN, SOUTH AFRICA

The Economics of Tobacco Control Project at the University of Cape Town is pleased to announce a three-day conference on research in economic and policy issues in African tobacco control. The conference will be a unique opportunity for African researchers to share, discuss, develop and disseminate tobacco control research. Additionally, it will be an opportunity for established and emerging tobacco control researchers in Africa to engage with several distinguished international tobacco control researchers.

We are pleased to announce that Professor Frank Chaloupka, Distinguished Professor of Economics at the University of Illinois at Chicago will deliver the keynote address. Other internationally recognized speakers include Hana Ross, Lekan Ayo-Yusuf and Jeffrey Drope.

We would like to invite abstracts from researchers conducting tobacco control research in Africa. Unpublished and works in progress will be given preference, however, dissemination of recently published work will also be considered. A number of travel scholarships will be available to researchers presenting research at the conference who live and work in a sub-Saharan African country. Abstracts should be submitted to tobaccocontrol@uct.ac.za. Scholarship applicants should submit a CV (maximum of 3 pages, in English) along with their abstract. The deadline for abstract submission and scholarship applications is Friday 15 April.

Conference Chairs:

Evan Blecher
American Cancer Society and School of Economics, University of Cape Town
evan.blecher@cancer.org

Corne Van Walbeek
School of Economics, University of Cape Town and Director: Economics of Tobacco Control Project
cornelis.vanwalbeek@uct.ac.za
